## Professional Summary

IT professional with experience supporting enterprise healthcare environments, including Oracle Health EHR systems, with foundations in Windows administration, networking, cybersecurity, and technical troubleshooting. ITIL v4 certified with hands-on experience supporting enterprise users and developing Windows Server administration skills through a personal lab environment.

## Technical Skills

**Operating Systems:** Windows, Windows Server, macOS, Linux

**Networking:** TCP/IP, DNS, DHCP, LAN/Wi-Fi troubleshooting

**Administration:** Active Directory, AD DS, Organizational Units, Users and Groups

**Tools:** VMware, Microsoft Office, FreshWorks, Assyst, Microsoft Teams, Oracle Health EHR

## Projects

**Windows Server** **Personal Homelab**

*Windows Server 2022, Active Directory, DNS, VMware*

- Built a virtualized Windows Server environment using VMware to develop hands-on systems administration skills.
- Installed and configured Active Directory Domain Services and promoted Windows Server to a domain controller.
- Created and organized users, groups, and Organizational Units (OUs) within Active Directory.

## Work Experience

**Nova Scotia Health Authority** **August 2025 – Present**

*ATE Support Consultant* *Halifax*

- Analyzed and resolved user issues within OPOR clinical workflows, identifying system or process gaps and escalating technical defects to appropriate support teams.
- Supported OPOR go-live activities within a virtual help desk environment, assisting staff with account access, workflow troubleshooting, system navigation, and escalation coordination.
- Assisted with support and escalation of issues impacting clinical workflows while maintaining awareness of operational, access, and patient information handling procedures within a healthcare environment.

**Resolve Sleep Health** **May 2024 – August 2024**

*Information Technology Intern* *Bedford*

- Created technical documentation, user guides, and spreadsheets using Microsoft Office to support employee workflows.
- Managed IT service requests and incidents using FreshWorks Service Desk.

**Concentrix** **May 2022 – July 2023**

*Technical Customer Service Representative* *Dartmouth*

- Provided Tier 1 technical support for iOS and macOS users, troubleshooting software, hardware, connectivity, and account issues.
- Maintained a 90 percent customer satisfaction (CSAT) score while coordinating high-volume technical support and repair requests.

## Certifications

**ITIL v4 Foundation Certification** – PeopleCert (2025)

## Education
